

Our Expertise. Your Advantage.

Consider It Done.™

GLC Advisory Consulting Services focuses on assisting senior firm leaders to establish effective strategies, leadership and management processes designed to improve and sustain competitiveness in the market. Our consultants employ proven methodologies and specific industry knowledge to help firms achieve measurable and sustainable strategic operational improvements. We assist firms in increasing their competitive position in the marketplace through a combination of services designed to:

- Develop competitive firm-wide vision and strategies
- Conduct organizational change necessary to implement the strategy
- Develop partner compensation and performance measurement systems
- Align practice groups with firm-wide strategies
- Enhance cost controls and management
- Improve utilization of strategic technology
- Provide rigorous and objective financial analysis, managerial review and guidance
- Lateral, merger & acquisition due diligence and searches
- Financial management and benchmarking
- Strategic sourcing and procurement of operational solution providers
- Managing partner/ leadership succession planning

**Putting
your firm
ahead of the
competition.**

Developing the right strategy, mixed with our full complement of support services can transform not only your day-to-day operations, but your entire firm.
